The Adirondack Trust Company
Announces New Mobile and Desktop Remote Check Deposit Service

Saratoga Springs, New York... The Adirondack Trust Company announced today that it has added a new service that will allow their WebWise® Online Banking customers to make check deposits using their smartphone or desktop scanner. The bank is one of a few nationwide that currently offers this service.

This smartphone service allows customers to use the camera function on their phone to take a picture of the check and then have it electronically sent to the bank for processing. The smartphone app is available at the iTunes® App Store, Android ™ Market and Blackberry® App World. The scanner service works the same way. The picture is taken by the scanner and the software running in the PC's browser electronically submits the check for processing.

Commenting on this new service, Mr. David Brown, Senior Vice President noted: "We are excited about this new service and how it will benefit our WebWise Online Banking customers. It allows them the convenience and flexibility to deposit checks via their smartphone or using their scanner. Even customers who travel south for the winter can now easily make deposits while they are away. We are very pleased with the number of customers who have already enrolled. It provides them a simple, fast and secure method for processing check deposits. There is no fee for this service and is available to any Adirondack Trust personal or small business checking account customer who has WebWise Online Banking access. The service is available, 24 hours a day, and 7 days a week."
